Valuing Diversity and Promoting Inclusion and Equality Policy

Policy statement

We are committed to ensuring that our service is fully inclusive in meeting the needs of all children and adults in the setting. It underpins Flos' overall equality policy, specifically for Flos' Nursery.

We recognise that children and their families come from a wide range of backgrounds with individual needs, beliefs and values. They may grow up in a range of family structures. Children may have close links or live with extended families of grandparents, aunts, uncles and cousins; while other children may be more removed from close kin, or may live with other relatives or foster carers. Some children come from families who experience social exclusion, hardship, discrimination and prejudice because of their ethnicity, disability, the languages they speak, their religious or personal beliefs, their gender, their sexual orientation and marital or economic status. We understand that all these factors can affect the well-being of children within these families and may adversely impact on children's learning, attainment and life outcomes.

We are committed to anti-discriminatory practice to promote equality of opportunity and valuing diversity for all children and families using our setting. We aim to:

- promote equality and value diversity within our service and foster good relations with the local community;
- actively include all families and value the positive contribution they make to our service;
- promote a positive non-stereotyping environment that promotes dignity, respect and understanding of difference in all forms;
- provide a secure and accessible environment in which every child feels safe and equally included;
- improve our knowledge and understanding of issues relating to anti-discriminatory practice,

- challenge and eliminate discriminatory actions on the basis of a protected characteristic as defined by the [Equality Act](#) (2010) namely:
 - age;
 - gender;
 - gender reassignment;
 - marital status;
 - pregnancy and maternity;
 - race;
 - disability;
 - sexual orientation; and
 - religion or belief.
- where possible, take positive action to benefit groups or individuals with protected characteristics who are disadvantaged, have a disproportionate representation within the service or need different things from the service.

Curriculum

The curriculum offered in our setting encourages children to develop positive attitudes about themselves as well as about people who are different from themselves. It encourages development of confidence and self esteem, empathy, critical thinking and reflection.

We ensure that our practice is fully inclusive by:

- creating an environment of mutual respect and tolerance;
- modelling desirable behaviour to children and helping children to understand that discriminatory behaviour and remarks are hurtful and unacceptable;
- positively reflecting the widest possible range of communities within our resources, such as books and toys;
- avoiding use of stereotypes or derogatory images within our books or any other visual materials;
- celebrating locally observed festivals and holy days;
- ensuring that children learning English as an additional language have full access to the curriculum and are supported in their learning;
- ensuring that disabled children with and without special educational needs are fully supported;

We will ensure that our environment is as accessible as possible for all visitors and service users. We do this by:

- We will ensure the setting is accessible to disabled children and adults. We will make reasonable adjustments to accommodate any additional needs of disabled children and adults.
- fully differentiating the environment, resources and curriculum to accommodate a wide range of learning, physical and sensory needs.
